The petitioner, respectfully applies for the replacement of his/her admission certificate.

Signature: 

Date Admitted: December 18, 2006

Request may be mailed or delivered via commercial vendor or in person. This request must be accompanied by the \$10.00 replacement fee.

I do not mind paying - however, the ink used at the time has faded terribly. The same was issued by Syracuse Ct, at the same time, & hung in the same places. It has not experienced the same deterioration.

Thank you - Ann Pickett

Dear Ms. Pickett:

Thank you for your note regarding the ink deterioration on your original admission certificate. You stated in your letter that you received certificates for both the Supreme Court and Court of Appeals but the certificate from the Court of Appeals had faded.

I cannot attest to the similarities of the ink used on the admission certificates back in 2006 when you were admitted to the Bar of the Supreme Court and Court of Appeals. In fact, this is the very first complaint that there was a problem.

In my research for now, I learned this Court basically utilizes the same type of toner cartridges in our copiers as the Supreme Court uses in theirs. We also looked at the differences in the paper used for the certificates concluding no striking differences.

I apologize for the mishap and hope that the enclosed replacement certificate will suffice to give you many more years of a readable admission certificate. Your check is being returned to you.

Sincerely,

Steve E. Castlen
